Doug Fleenor Design offers a 5 year manufacturer’s warranty. It is a “ship and repair” warranty; we do not offer advance replacements. We typically process repairs within one to two days. Warranty repairs are free and include FedEx Ground shipping from our facility to you. If warranty repairs require expedited shipping, freight charges are invoiced. It is your responsibility to cover shipping to our facility. Non-warranty repair charges are \$30 for basic repairs plus the return shipping charges, and \$75 for LED Power Supplies. Charges for complex repairs will be calculated on a case by case basis. Once repairs are complete, we will contact you to confirm shipping and payment information.
