

DOUG FLEENOR DESIGN

Preset Ten Portable

model: PRE10P
technical data sheet

The *Preset 10 Portable* can act as a seamless backup for DMX512 lighting consoles or as a stand-alone DMX512 preset console. The *Preset 10 Portable* is capable of storing up to ten presets. These presets are recorded by capturing the output of a DMX512 console. Each preset can be assigned a unique crossfade time, from 0 to 999 seconds. Presets are recalled by pressing one of the buttons.

When operating as a backup device, *Preset 10 Portable* monitors the DMX512 output from your lighting console. If console output is lost, *Preset 10 Portable* begins transmitting to maintain the current look and alerts the user to the loss of DMX. Crossfading to any of the stored presets is then initiated by pressing a preset button

The *PRESET 10* also comes in a wall plate version for architectural applications.

SPECIFICATIONS:

Connectors:	Input: 5 pin male, gold plated contacts (3 pin connectors optional) Output: 5 pin female, gold plated contacts (3 pin connectors optional)
Connector pin out:	1 - DMX512 common 2 - DMX512 data - 3 - DMX512 data + 4 - Passed Through 5 - Passed Through

DOUG FLEENOR DESIGN

Limited Manufacturer's Warranty

Products manufactured by Doug Fleenor Design (DFD) carry a five-year parts and labor warranty against manufacturing defects. It is the customer's responsibility to return the product to DFD at the customer's expense. If covered under warranty, DFD will repair the unit and pay for return ground shipping. If a trip is necessary to the customer's site to solve a problem, the expenses of the trip must be paid by the customer.

This warranty covers manufacturing defects. It does not cover damage due to abuse, misuse, negligence, accident, alteration, or repair by other than by Doug Fleenor Design.

Most non-warranty repairs are made for a fixed \$50.00 fee, plus shipping.
